

# MANAGING YOUR SYLLABI JUST GOT WAY EASIER

Simple Syllabus is a centralized, template-driven platform that enables instructors to quickly personalize and publish interactive syllabi – saving your entire campus time, budget, and frustration. Our application’s unique approach pulls together established institutional data such as policies, learning objectives, and course section content so your staff doesn’t have to.

## How it Works

The Simple Syllabus dashboard is unique to each user, listing each syllabus needed for the next term. Syllabi are automatically pre-populated with required institutional data and prior approved content for that class section.

Once published, the syllabus is available to students in web, mobile, and even print format. All syllabi are archived and can easily be retrieved within the system.

## Major Features

- ✓ Dynamic Templates – Technology does the work so you don’t have to
- ✓ Personalized Dashboard – Organization through automation
- ✓ Audit Tools – Instantly know the who, what, & how
- ✓ Central Repository – Everything you need in one place
- ✓ Student Portal – Preparing for class has never been easier

## It’s All About You

### Faculty

Save time and eliminate boring, redundant tasks. Simple Syllabus automatically generates major components of your syllabi such as policy, schedule, and more. Single-click publishing means your content goes every where it needs to – instantly.

### Administrators

Ensure consistency of critical information through institution wide templates. Establish deadlines and automate governance activities through seamless approval. Quickly retrieve necessary information for accreditation and regulatory purposes.

### Students

Content automatically optimized for web, mobile, and print means students can readily find information. Optional shopping cart functionality saves students time and money, providing a direct link to Amazon with textbooks for courses.
